

Environmental Policy General Statement

Release Date: 13th March 2023

Document No.: POL-IMS-DAK-002-Environmental Policy General Statement

Environmental Policy General Statement

Defaf Al Khaleej Security Services (DAK) is dedicated to reducing both the immediate and long-term effects of its operations on the environment. The creation of sustainable business practices aids in our efforts to improve operational effectiveness and lessen our carbon impact.

Regarding the environmental impact of our operations, we shall abide by all applicable laws, client requirements, and regulations, and where possible, go above and beyond them.

In order to help build a sustainable business that will safeguard and maintain the environment for future generations, this policy statement defines our main commitments.

- ✚ We will continuously analyze our influence on the environment and introduce business practices to lower our carbon footprint.
- ✚ We will establish procedures for decreasing environmental effect, focusing on:
 - Fuel usage
 - Energy consumption
 - Use of water
 - Waste minimization and recycling
- ✚ Whenever it is practical and practical to do so, we shall work to decrease waste and recycle items.
- ✚ To decrease the need for travel, we will deploy more advanced communication technology.
